ISBN: 978-0-9851984-4-2 (ebk)

*“Martin has crafted another engrossing tale of seduction and international intrigue, the story of Nadia, a Russian orphan girl who grows into a woman other women want to be and all men want to have, but only the reader truly wins.”*

-David Ward, Academy-Award winning screenwriter

*Nadia’s Obsession*, Charles Martin’s thrilling new novel, follows his award-winning novel, *Provocateur*, published last year.

Both novels focus on a fascinating protagonist, Nadia, who grew up an orphan in an industrial city in south western Russia. She comes to America through a mail-order-bride program and becomes involved with an unusual agency run by a retired CIA agent (Olga). This catapults her into the high life and puts her up against powerful, alpha males.

While Nadia had an extremely difficult young life, she is blessed with superior intelligence and beauty, a “lethal combination” against men, as Olga would put it. In the author’s novels he takes a deep dive into the dynamics of the power that women have over men. The stories are loaded with intrigue, danger, some close encounters with romance and sexual tension.

A brief prolog enables readers to jump right into this second novel, even if they have not read the first.
